

TEAM **K** EANE

Sculling School

CORONAVIRUS COVID-19

University of London, (UoL) Boat Club requests that all athletes and supporters try to keep use of the changing rooms and toilets to a minimum.

This means all athletes should only use the changing rooms for the toilet facilities and hand washing and NOT remain in there for any period of time. The aim is to limit access to the changing rooms to avoid overcrowding and we encourage athletes to remain outside the building as much as possible.

The changing room toilets & hand washing facilities should be used by athletes only. Supporters are welcome to use the two toilets available & cafeteria facilities but let's limit the time spent inside the building please use for a short period and remember to wash your hands at all times!

Hand sanitiser will be available at the BBQ marquee and race officials will have this also available on their person.

There will also be spray disinfectant and cloths available for all athletes to wipe down handles and seats on the ergometers after use and we request that all athletes use hand sanitiser after handling the boating equipment.

Thank you for your support & cooperation.

TKSS Committee.
